## Work Experience

### Current position

September 2020 – to date

- EOSC Program Manager at CSC – IT Center for Science Ltd.
- Coordinator of the EOSC Finnish Forum
- Member of the Researcher Engagement & Adoption Task Force of the EOSC Association
- Member of the European Ocean Observing System (EOOS) Advisory Board (April 2021 – to date)

In my role I am responsible for the coordination of the European Open Science Cloud (EOSC) activities at CSC – IT Center for Science and at the Finnish national level.

- Coordination of the EOSC activities at CSC:
  - Definition and implementation of the CSC strategy for EOSC;
  - Coordination of the participation of CSC in EOSC-related initiatives and EC-funded projects;
  - Coordination of the CSC internal team working on EOSC-related activities;
  - Contribution to EOSC-related projects in particular to the EOSC Future project where I am leading the Stakeholder engagement activities and the task responsible for ensuring the alignment of EOSC Future with MSs, the other EOSC projects and the other strategic initiatives in the landscape such as EuroHPC, Gaia-X, the European data spaces, etc.
- Coordination of the EOSC activities at national level:
  - Designing and driving the EOSC Finnish Forum in collaboration with the Ministry for Education and Culture, the Academy of Finland and the National Open Science Coordination initiative;
  - Defining and implementing the strategy for engaging the Finnish stakeholders with EOSC;
  - Coordinating the discussion around EOSC at national level.
  - Monitoring the EOSC uptake in Finland.
